1st INTERNATIONAL CONFERENCE ON WELDING OF WGI**

1st ICWNDT-2018

**ORGANIZED BY THE HELLENIC SOCIETY OF NDT & THE
WELDING GREEK INSTITUTE**

22-24 October 2018, Eugenides Foundation – Planetarium, Athens-Greece

Dear colleagues,

The conference organizing committee with their chairmen Prof. Ioannis Prassianakis and Meletios Tzaferis cordially invites you to present papers and posters in all relevant fields of NDT and Welds and also to participate in the exhibition of new NDT and Welds products, which will take place during the conference.

The aim of the conference is to bring together scientists, researchers and industrial engineers in the attempt to exchange recent experiences in the research and development activities in the field of NDT and Welding, as well as to promote international collaboration in all matters related to NDT and Welding.

You are kindly invited to participate in this important event and take the chance to create or renew friendships, exchange ideas and have the opportunity for relax in this historical and famous city of Athens, website: [ABOUT ATHENS](#).

Athens is the capital and largest city of Greece and is one of the world's oldest cities. Classical Athens was a powerful city-state, a centre for arts, learning and philosophy, home of Plato's Academy and Aristotle's Lyceum and, - it is widely referred to as the cradle of Western civilization and the birthplace of democracy. The heritage of the classical era is still evident in the city, represented by ancient monuments and works of art, the most famous of all being the Parthenon, considered a key landmark of early Western civilization.

Athens was the host city of the first modern-day Olympic Games in 1896, and 108 years later it welcomed home the 2004 Summer Olympics. Athens is also home to several large museums, such as the National Archeological Museum, featuring the world's largest collection of ancient Greek antiquities, the Byzantine and Christian Museum and the new Acropolis Museum.

Looking forward to welcome you in October 2018

The Chairmen of the Conference

Prassianakis I., Prof. Emeritus - NTUA, President of HSNT and Meletios Tzaferis, (Chief)
Executive Director of WGI, Mechanical Engineering.

Call for Papers

You are invited to submit abstracts according to the below mentioned guidelines:

- Registration of papers will only be considered if they are submitted completely, i.e. together with all requested data and the abstract.
- Authors should register only one paper.
- English being the conference language, the contributions have to be submitted and presented in English. Translation into other languages will not be provided.
- Please send your paper submission and the abstract (about 300 words) to e-mail: hsnt@hsnt.gr until 1 January 2018 the latest.
- Authors have to classify the topic of their speech.
- Presentations will be in oral (20 min. incl. discussion), and poster form.
- Authors will be informed about the acceptance of their contributions on 1 February 2018.
- Authors, whose paper is accepted, have to register via using the attached form and returning it to the e-mail: hsnt@hsnt.gr and pay the registration fee until 1 September 2018 the latest.
- The registration is binding and non-refundable.
- The full paper, formatted according to the template, must be on hand in the HSNT as an electronic file by 1 July 2018.
- The template for preparing the manuscripts will be sent to the authors and also be published at our websites.
- The proceedings will be available at the conference.

Conference Topics

The topics to be covered by the conference include all thematic areas of current research and industrial use of NDT and Welds. Main topics of the conference are:

- Advanced NDT and Ultrasonic Techniques
- Advanced joining processes
- Aerospace and Marine.
- Applications and innovations of NDT methods.
- Applications for the power generation (including nuclear technologies).
- Applications for the shipping and aerospace industries.
- Composite materials, Welding and Adhesion
- Developments in automation of welding processes
- Developments in dissimilar materials joining
- Developments in pipeline construction
- Developments in welding consumables
- Developments in welding power sources technology
- Digital Radiography.
- Fundamental and applications of welding and joining process.
- Industrial Manufacturing.
- Inspection, Training and Certification of Welding and NDT personnel.
- Microstructure and metallurgical behaviors in welds
- Modeling and Simulation of Welds and Welded Structures.
- NDT applications in the civil structures industry.
- NDT for the diagnostics and refurbishment of cultural heritage monuments
- NDT in Medical Applications.
- NDT Technology Transfer.
- Non-Contact NDT methods.
- Residual stress and distortion in weldments.
- Testing and inspections for weld integrity.
- Theoretical modeling.
- Weld properties and performance.
- Weldability of materials.
- Welding consumables and equipments.

- Welding practices in industries.
- Others.

Committees

Chairmen of the Conference: Prassianakis Ioannis, Prof. Emeritus - NTUA, President of HSNT, e-mail: prasian@central.ntua.gr, and Tzaferis Meletios, (Chief) Executive Director of WGI, Mechanical Engineering, e-mail: tzaferis@wgi.gr.

Organizing Committee:

1. Antonatos Alexandros, Public Power Corporation S.A, Head of Dep. TRSC, Athens, Greece.
2. Charitidis Con/nos, Mech. Eng., NDT Inspector, Thessaloniki, Greece.

Platinum sponsors may send up to a six pages advertisement to be included in the book of abstracts and up to 8 pages for the proceedings in electronic format All platinum sponsors will be promoted throughout the conference and well noted on all conference publications as well as to appear on HSNT's conference home page on the web.

Excursion Program

In addition to the technical conference sessions, an entertainment program for accompanying persons is prepared. A half-day trip for sightseeing in Athens together with a visit to Poseidon Temple in Cape Sounion on October 23, 2018.

The excursion will take place to the famous ancient Greek temple of Poseidon which is located in the Cape **Sounion** 69 kilometers south-southeast of Athens, at the southernmost tip of the Attica peninsula in Greece. Cape Sounion is noted as the site of ruins of an ancient Greek temple of Poseidon, the god of the sea in classical mythology. The remains are perched on the headland, surrounded on three sides by the sea. The ruins bear the deeply engraved name of English Romantic poet Lord Byron (1788–1823).

The site is a popular day-excursion for tourists from Athens, with the sunset over the Aegean Sea, as viewed from the ruins, a sought-after sight.

The inscription of Eleusis, was found by archeologist Philios on 1893 in the small town of Eleusis, which is located 15 Km west of Athens city. It has been inscribed on a white marble stele of dimensions 51cm height, 21cm width and 6cm thickness, around 360 B. C. At that time this inscription is considered, as the oldest ancient European standard discovered so far and constitutes a standard with very strict technical specifications, www.hsnt.gr/ndt-in-ancient-greece-by-i-n-prassianakis.
